# Introduction

Old cemeteries are like well read and worn books. They tell stories of life and love, volunteerism and achievement, as well as tragedy, war, and death. They are the final resting place for those who have made their mark on the world, as well as for those more humble and ordinary citizens who, like the majority us, go about our everyday lives without any fanfare or great recognition. However, as time fades the pages of old books, the gravestones in cemeteries, which record the information of those interred within its gates, also age due to weather, pollution, vandalism, and time. It is important to record and recognize the information appearing on many of the older stones and the handcrafted artistry of yesteryear undertaken in creating them. If the information is not recorded for the future genealogist, the record of the stone's owner will be reclaimed by the ages and will pass into anonymity.

This stone inscription project was undertaken by the Hanover Cemetery Association during the years 2000-2003. The original intent of the project was to record the inscriptions of old, fragile and deteriorating gravestones located in the Hanover Cemetery. The project also recorded the names and dates of those interred in the cemetery

during the years 1849-1879, a period in which the cemetery managers did not keep any vital statistical information or interment records. As the project progressed, it grew to encompass not only the old fragile gravestones, but also the modern ones in the cemetery. When we completed this project, every decipherable headstone with names and dates was recorded in this book. The genealogist should note that this guide does not encompass a comprehensive list of all the interments in the Hanover Cemetery. Many graves, for various reasons, are not marked with any type of stone. Information on a complete record can be obtained from the cemetery's superintendent.

The concept for the format of this guide came from Chris Kleban, the cemetery's computer expert. He recorded, typed, formatted and assembled the final copy. Chris Kleban, myself, and Robert and Michelle Newhouse did the majority of the field recording of the actual gravestones in the cemetery. I donated all the photography of the headstones that grace the pages of this book. Ray Kleban provided use of a digital camera for a weekend when we realized that we were short a few shots of headstones toward the end of the project. He also took some of the photos of the overall cemetery that appear at the front of the book. Finally, this book would have been impossible without the support of the trustees of the Hanover Cemetery Association: H. Lee Dixon-President, Robert Newhouse-Vice President, Richard Zaleski, LeMoyne (Skip) Griffith and Vera Goodman-Treasurer.

Reader's Note:

The list, which appears in the appendix of this guide, is not a conclusive list of all civil and military servants (Military, Fire, Police, etc.) interred in the Hanover Cemetery. These lists were compiled by reading each individual's military marker, flag or other discernable identification information available. All previous Livingston Fire Department members shown were taken from the roster appearing in the appendix of *Livingston Fire Department: Eighty Years of Dedicated Service* (2001).

## How to Use This Book

The bold writing on top of an inscription such as: Smith, Elmer (MM) Inscription, designates the original plot owner. (MM) indicates the main monument or large marker present within that plot. (SM) indicates a secondary marker or smaller monument within a specific plot. See the Virtual Plot Layout on the next page as example. To make it easier when looking for a specific person, we have compiled an extensive cross-referenced alphabetical index. All plot owners' names appear in bold print in the index.

The 'New Section' label to the right of the inscriptions designates that it is in the newest section of the cemetery. Other labels and abbreviations can be seen below. These will also be to the extreme right of the inscriptions. Dates that are in bold, red print mean that they were during the time period of 1849-1879, a time when no records were kept.

*Call me back pal o' mine let me dream once again,  
 O promise me that someday you and I  
 Call me back to your heart pal o' mine,  
 Will take our love together to the sky  
 Let me roam once again down in old lover's lane,  
 Where we can be alone and faith renew,  
 As I did in days gone by,  
 and find the hollows where those flowers grew,  
 Let me live in your arms,  
 those first sweet violets of early spring,  
 Let me thrill with your charms,  
 which come in whispers, thrill us both,  
 Let me kiss those sweet lips so divine,  
 and sing of love unspeakable, that is to be,  
 Let me gaze in your eyes and I'll find paradise,  
 O promise me , O promise me  
 Call me back to your heart pal o' mine,  
 Call me mine*
